Gorgeous Light, Stylish Reno, VSC Zone

A move in ready setting that's bright, stylish and zoned for Rangeview Primary and Vermont Secondary (STSA). Now that's the perfect way to take your place in parkside Vermont.

Radiant with light from its north-west facing aspect, the home soaks in gorgeous sunshine through its mid-century corner windows, and shines with elegant new finishes and a spectacular front deck fashioned around a showpiece Japanese Maple.

With the hard renovation work done, all that's left to do is celebrate the beauty of a classic build enhanced by a contemporary refit – crisp white paintwork and LED lighting as your backdrop, satin finish hardwood floors underfoot and app-controlled space heaters to warm your bedrooms.

?

In the main living space, an electric log flame fireplace brings the family together – with natural flow across to the dining room as a second family hub.

?

The kitchen excites with on trend finger tilework, premium 90cm AEG appliances and sleek stone benchtops. The two new bathrooms offer the growing family convenience, including two showers, two toilets and a bath for young children.

?

A rectangular 612sqms (approx.) block with an open swathe of lawn at the rear promises plenty of outdoor fun, or scope for a granny flat to set you up for a promising future close to all the essentials – schools, shops, transport connections and some of the district's most beautiful walking tracks through Campbell's Croft, Abbey Walk and Bellbird Dell.
