Your private oasis awaits

Set on 3.7 acres with breathtaking forest views, this beautifully crafted home is perfectly nestled on the edge of nature and only a 3 minute drive to town.

Immaculately presented, the 4-bedroom home with a study has been thoughtfully designed with features including two spacious living areas, an open-plan kitchen/living/dining area with walk in pantry, master suite that includes a full ensuite with a double vanity, freestanding bath, and walk-in robe, while the other three bedrooms are generously sized and each with a walk-in robe of their own.

The outdoor space is beautifully landscaped with low-maintenance gardens and mature trees, blending the forest backdrop right into your backyard. For enjoyment in the warmer months, the home is equipped with a 9x4m saltwater pool and 6-seater spa, and for colder times relax around the built-in fire pit with seating.

The home features reverse cycle heating and cooling throughout, ceiling fans in all bedrooms, large animal enclosure, a 7x12m shed, plus further 3x7m open shedding, solar and battery system, town and MIL water.

This property is a MUST to inspect.
