FOR SALE BY NEGOTIATION

LOCATION & OPPORTUNITY! Those who live in this tightly held little patch of Caboolture will be the first ones to tell you.."I'm only going out in a box!" ..they absolutely love it here. Positioned close to all the much needed amenities this town has to offer but yet far enough away that there is quiet enjoyment. The streets are traditionally wide, there is loads of space for off-street parking and to pass your neighbour a cup of sugar you would actually have to walk there as blocks in this patch typically range from 600sqm - 1500sqm. Much more separation between homes here than the newer, more modern estates. The home itself is from the era of measure twice and cut once. With original timber floors underneath the carpet, a lick of paint and some upgrades to the kitchen and bathroom will see this neat brick property become some lucky buyers home sweet home. PROPERTY FEATURES; • Solid brick construction • Three bedrooms • Built-in wardrobes • One bathroom, separate toilet • Internal multi-level, step down to the large open plan lounge, kitchen and dining area from the bedrooms end of the home • Sunroom • Air-conditioning • Underneath garaging for two cars and room for the tools • High side carport, great height for a campervan • Side rear access to back yard on both sides of the home • Large, low maintenance back yard, fully fenced with plenty of space for a pool and a shed • Wide streets, space for off-street parking There are original timber floor-boards underneath the carpet This may be your next best investment or place to call home! Contact me today for more information or assistance with viewing.
