\$469,000

Located in the very sought-after suburb of Innisfail Estate this is the perfect family home. Within a few minutes walk to the local high school and just a few more and you are in the centre of town. This modern home is a long way from a vanilla cookie cutter. It features 4 good-sized bedrooms the master having the luxury of a large ensuite with corner spa. Mum will lock the door, run the bubbles, and pour a glass of wine. She will also particularly love the very large walk-in robe. This bedroom is separated from the rest and is generous in its proportions. The kitchen is light, bright, and modern with white benchtops and high ceilings, new light fittings and fans, and a good-sized breakfast bar at the end from where the kids can get the best start to the day. There is also an extra large laundry which can store the chest freezer and the spare fridge. The multiple living areas in the house allow space for everyone to do their thing. From the main living room in the front to the family room adjoining the kitchen and the extra living room on the side which could be a rumpus/PlayStation room or designated for entertaining guests at happy hour, if it is Pilates or Yoga that you are into you will love the raised platform pavilion in the backyard. This could also work for a BBQ and outdoor dining area. Garaging is by way of an extra large single garage and workshop which is fully powered up and completely secure. There is a high clearance double carport at the front which is high enough for the boat, caravan or motorhome. The yard is fully fenced and an extra garden shed out the back can house all the gardening gear. For added security, the home is fitted with electric outdoor roller shutters. Great for peace of mind if you're going away traveling or if the weather turns.
