This cute home is deceptively large and sits on a full sized block! Renovated a few years ago, it is offering 2 large bedrooms, single bathroom with bath and separate shower, modern kitchen, North facing naturally light open plan dining and living room. Well maintained by great Rental Providers, it's comfortable and spacious. The outdoor deck is a real treat with some water views. Placed in an elevated position in the street, the easy to maintain garden is neat and tidy and there is a huge 3 car garage. Other features include split system heating and cooling, LED down lights throughout, internal laundry. Please note: no need to register for inspections, just attend the open for inspections as advertised.
