Imagine living on a huge block of land, almost a third of an acre, with stunning views of the mountains and the sky. You can enjoy the fresh air, the peace and quiet, and the freedom to create your own oasis where you can grow your own fruits and vegetables, raise chickens, or even bring in a goat or two! Once that's done, why not convert the massive she with all those features into a workshop, office, workshop, studio, or... whatever you want really - The possibilities are endless! The house itself is a solid brick construction, raised off the ground to catch the breeze or start another project you just never had the room for before.. It has a open patio where you can rsit with a cooff in the morning and admire the horizon. It also has solar panels to save you money on electricity bills. The interior is cozy and comfortable, with three bedrooms, one bathroom, and a central living area. The location is perfect for commuters, as it is close to the new highways' near-complete on-ramp that connects you to both Fraser Coast and Sunshine Coast. You can also access all the amenities and services that Gympie has to offer, such as schools, shops, hospitals, and parks, all within walking distance! This property is a rare treasure chest of opportunity for those who know what they're after in life.
