Family Charm On Pandora

Solidly built with a focus on flow, functionality and comfort, this bright and beautiful single-level home delivers a favourable family lifestyle in a private pocket.

Hallmarked by its excellent light-filled floorplan boasting two separate living areas, zoned accommodation, contemporary updates and immaculate presentation, this home has been designed with the growing family in mind.

Corbelled archways and a decorative ceiling rose add charm and character to the elegant sunken living on entry, while a central family living offers a spacious setting for the kids to play their games.

Stainless steel appliances, roomy benchtops and plentiful storage space add style, quality and functionality to the updated kitchen, and with a direct view across the undercover alfresco and manicured backyard, you can keep an eye on the kids playing outside and prepare meals at the same time!

All three bedrooms (ensuite and walk-in robe to main) and a fully-tiled family bathroom are zoned for privacy; large laundry, abundant storage, ducted heating, evaporative cooling, easy-care landscaped gardens, large vegetable gardens, double lock-up garage with a carport in front and a remote sliding front gate add further appeal to this immediately enjoyable home.

Conveniently located within short walking distance of Pandora Park Playground, Carrington Children's Activity Centre, HR Uren Reserve, Thomastown Meadows Primary School and bus services and moments from TRAC, the Metropolitan Ring Road, Thomastown train station, Whittlesea Public Gardens, Epping Plaza Shopping Centre and the Northern Hospital.
