EASY CARE LIVING

This well-positioned home has been finished and maintained beautifully from front to back. The layout is very efficient and offers three large bedrooms and generous living areas with plenty of options to configure furniture to suit your lifestyle.

With a large kitchen, a beautiful alfresco area and a super easy-care backyard; the list of features is long and won't leave you wanting.

There is a strong focus on low-maintenance living, with the backyard providing plenty of further options for gardening. You could make this some sort of pot plant wonderland, or you could add some garden beds... or leave it as it is and enjoy your weekends doing something other than gardening! What's here is beautiful all you have to do is make it your own.

The main living areas are generously sized and benefit from a split system a/c plus a ceiling fan. Each of the bedrooms are large and even the minor bedrooms can accommodate larger furniture.

The house is located in a quiet pocket, which is remarkably close to all the good stuff Byford has to offer. It is an easy stroll to West Byford Primary School, making this an ideal investment or place to call home.

This is one of the best value homes in the area - it won't last long! Contact Travis Grogan via the **CONTACT AGENT FORM** of this website and we will be in touch to book in a viewing.
