Lydia Kirn

Flooded with Light

Ingeniously designed to suit a large, five-corner allotment in the very heart of Twin Waters, this magnificent family home is an oasis of light and tranquillity where high, raked ceilings and large window fronts create a feel of infinite space and airiness.

A completely private, heated pool with a softly bubbling water feature is the captivating centrepiece of the residence. Foyer and office, a lounge and the open-plan living area, an all-weather alfresco terrace and a fabulous pool house with jacuzzi pavilion are all located by the pool. This beautiful arrangement spoils you with a delightful waterside ambience at all times, whether you work at your computer, read your morning paper, enjoy a family dinner or entertain friends. The pool house opens to this ambience in its entire width and offers versatility that reaches from a snooker room or art studio to a dance floor for fabulous parties.

Two well-sized guest bedrooms, serviced by a second bathroom with walk-in shower and corner bath, are separated from the master suite by a second living or media room, allowing for the latest blockbuster movie to play while the conversation continues undisturbed in the main living area.

The double garage offers plenty of storage or workshop space. The adjacent courtyard, accessible from the laundry and from a side gate at the front of the property, hosts a welcome parking bay with plenty of width for a caravan or a trailer boat.

Combining such practicality with an easy coastal lifestyle and the extra pizzazz defined by the pentagonal shape of the allotment, this residence is truly one of a kind.

Experience the extraordinary and call Lydia for your inspection.

Ingeniously designed to suit a large, unique five-corner allotment in the very heart of Twin Waters, this magnificent home is an oasis of light and tranquillity where high, raked ceilings and large window fronts create a feel of infinite space and airiness.
