Complete the dream! This modest 3-bedroom home is centrally placed on an elevated 1014m² fully fenced block in a very quiet cul de sac. This property was undergoing many different renovation projects from enclosing the front deck to changing the kitchen, replacing flooring, building a separate deck, and even renovating the bathroom, but the dream will need to be realised by the next owner as the current owners have a new adventure to embark on. There are 2 entrances from the road, one leading to the double lock up 6x6 shed and the other to the front of the house, offering 2 outdoor car spaces and the yard is completely usable and has many different garden pockets throughout with pathways meandering from one space to another. It would be a perfect place for the kids and fur babies to explore and play or grow their own vegies. This property offers a great opportunity to buy on our beautiful Mountain and add your own personal touches.
