When you step into this two-story Metricon built home, you'll immediately notice the spacious and welcoming atmosphere, perfect for a growing family. The heart of the home is a sleek galley-style kitchen, featuring a 5-burner gas cooktop, electric oven, dishwasher, and walk-in pantry. This kitchen seamlessly connects to a large open-plan dining and living area, which opens up to a covered under roof alfresco area. A separate lounge area offers a private retreat for those quiet moments or perfect for a media room. Working from home is made easy with a generous study at the front of the house. The downstairs area also includes a laundry room, a walk-in linen closet, a powder room, and a double remote-control garage. The under-roof patio overlooks the fully landscaped yard double gate side access. Upstairs, you'll find a versatile space perfect for family activities and easy access to the carpeted bedrooms, all with fitted robes. The master bedroom features a walk-in robe, an ensuite, and a balcony with views of natural bushland. The family bathroom includes a separate shower, bath, and vanity, with a nearby toilet. Additional features of the home include fly screens, ducted air conditioning, ceiling fans, and a comfortable 576m² lot situated close to schools, shops, and transport. Book your private inspection with Tracey or join us at one of our open houses.
