Amazing home, amazing value!

The largest master bedroom we have seen in the area!

This wonderful property is located in the heart of Margate in a quiet street, on the top of the hill, close to all the amenities, including the shops, schools, transport and a short stroll to the water.

It has been significantly improved by the owners, and it positions itself at the top of the range.

On the ground level, it features two car garage, spacious media room, that could be converted into the fifth bedroom, large family and dining areas and a Master Chef style kitchen, equipped with all the modern appliances, including a dishwasher, range hood and plenty of bench-top space.

It flows seamlessly into the covered outdoor entertaining area with shade and mosquito electric mesh screens and an outdoor 6 person SPA bath, mounted on a concrete slab and fenced out with glass pool fence.

It would be a great place to entertain the family and friends over Christmas holidays!

Upstairs, it features another living area, massive master bedroom with a very large walk-in robe and an en-suite, opening onto a spacious balcony, facing North and catching all the sea breezes, and three more generous size bedrooms.

Other features include 6.5 KWT Solar Power system, garden shed and landscaped gardens.

Freshly re-painted and re-carpeted, it feels and looks like a brand new home.

It has to be sold, so call us today to arrange an inspection.

405 M2 fully fenced landscape

6.5 KWT Solar Power
