\$283,000

This gorgeous home has all the hard work completed inside as well as out. First impression when entering this property is the time and care taken with presenting this home at its very best. Immediately your attention is drawn to the private aluminium slated front verandah. This is the beginning of what is to come and shows the care and attention this property has received. The double carport gives privacy to the lounge area while enhancing the exterior look of this home. The backyard is a sheer delight beginning with the beautiful timber deck, multiple storage sheds, pergola area adding extra entertainment area or shaded area for children to enjoy. From the front verandah you enter to a good sized lounge room through to the immaculate kitchen / dining area. The kitchen's stand out feature is the care and thought that has been taken plus the generous amount of cabinetry. With wall oven, hotplates, stainless steel dishwasher and double sink this will be an enjoyable space to create in. The bathroom with corner vanity unit has dark floor tiling to set off the white surrounds perfectly. The air conditioned bedrooms have built-in wardrobes to three and beautifully appointed flooring throughout the home with tiled flooring to the wet areas. Separate toilet is conveniently located nearby. The internal laundry has not been left out and is as impressive as the rest of the home. Well thought out and boasting excellent storage this completes the picture to a home that is ready and waiting for a family.
