## **Wessex House**

Enjoying a prime location in the heart of Denmark, this craftsman built home is surrounded by coffee shops, medical services and the local supermarket directly across the road. Offering a unique opportunity to secure an in town residence, the property is zoned commercial but its approved use is residential. The three bedroom home is extremely well presented, and has just had a new kitchen installed. The wide verandah at the front of the home is a lovely spot to sit back and watch the world go by, and overlooks the sealed parking area at the front of the 1012sqm property, while a rear laneway allows for access to the large backyard. This is a rare chance to secure a low maintenance home in the centre of town, please contact Kim Barrow on 0427 481 498 for further information.
