Once-in-a-lifetime: Palm Beach Beachfront by Walter Barda

"Amandalu"

A seminal design by acclaimed architect Walter Barda takes full advantage of this premier site on Ocean Road. Oriented to frame front and centre views across the golden sands of Palm Beach, its pavilion layout is a superb fusion of form and functionality, drawing inspiration from its majestic beachfront setting; the design incorporates organic textures with bold, clean architecture to create a singular, contemporary vision.

Glass and cedar doors disappear in the warm months to reveal a home in which there are simply no boundaries between the inviting interiors and expansive decks. The strong lines of the central living area delineate its fluid borders, while the pavilion layout extends smoothly to the privacy of the main entertaining deck, gorgeous gardens and those breathtaking views.

This home is beautifully set up for weekend visits with living zones and decks on both levels and a custom-designed kitchen; there are large, comfortable bedrooms, a charming bunk room for the kids and a master suite that opens entirely to the seascape. Signature features include wide-plank hardwood floors, plantation shutters, gas fireplaces on both floors, a beautifully crafted sauna and air conditioning; a double garage offers internal access to the home.

This is a once-in-a-lifetime offering – a superb Walter Barda design in one of Palm Beach's most exclusive settings – it's literally a stone's throw from the surf and the views are absolutely incredible.
