\$490,000

This three bedroom brick home has recently been professionally renovated throughout, and with precious little to do it will attract those who want a home to move into and just put their feet up. It is currently rented until 28.10.2024 at \$450.00 per week by caring tenants who are willing to stay on if it is purchased by an investor. The kitchen is electric and features under bench oven, cook-top and range-hood and dishwasher as well. The bathroom is smartly tiled (no bath) and the home offers two toilets. All three bedrooms are freshly painted and carpeted. A separate fourth bedroom would ideally be useful as an office, hobby room or nursery, while a multi-purpose area at the north end of the home provides extra space as well and could be used as a playroom, sitting room and adjoins a protected north-facing outdoor area. The property has two street frontages and neither neighbour is in close proximity. The garage building provides space for two vehicles plus a useful workshop area and is equivalent to 4 car spaces in size. A value-packed property here so see it soon.
