YOU ARE BUYING A PIECE OF HISTORY

Built in 1910 this stately period home with the name "Cambridge" still has the charm of it's era but with a modern functionality. The home has pressed tin ceilings, large spacious rooms and passage, beautiful timber kitchen, 4 bedrooms, renovated bathroom. Outside it just gets better with a huge alfresco area, manicured gardens, double garage with power and concrete floor, garden shed, carport large enough for a motor home all serviced from the rear street access. The location is perfect being set between the schools, sporting facilities and the main street of town.

This property is stunning and should be on your "Must See "list. Inspections by appointment only, contact the selling agent today.
