Get Away From It All...

If you love our native wildlife and value your peace and quiet then this is your dream property. The small home has a very energy efficient and low waste footprint yet is cosy and comfortable complete with sleeping loft, lounge, kitchen and dining area, composting toilet, solar system, bathhouse, and fenced house yard. There are two tanks, two dams, and shedding.

This extensive property offers a secluded retreat among the trees. With elevated areas offering views of distant mountains, including Mt Alexander, and sheltered hollows, there are plenty of possible sites for your off-grid dream home if you fancy a bigger build.

Fully fenced with a good access track, lots of native flora and fauna and registered with Land for Wildlife, a property of this size is a rarity on the market. Just minutes to both to Castlemaine, Maldon, and an easy detour off the Calder Freeway from Fogarty's Gap Road this would make a great weekender or retreat- please inspect with agent only!
