A PRIVATE HIDEAWAY IN A PERFECT LOCATION

This beautifully located two-bedroom duplex is an incredibly well-designed retreat from the day-to-day hustle and bustle of life. Surrounded by trees and with a beautiful sense of serenity, peace, and quiet this is a very special part of the world. With a recent renovation making this the most desirable place to be with a gorgeous bathroom and modern kitchen.

LIVING HERE

The living area has a raked ceiling and a beautiful ambience created by the in-built fireplace. The kitchen overlooks this main living area, and the whole space works very well in this retreat-style getaway. The bedrooms are both of a good size. The master bedroom has fantastic space for a good-sized bedroom suite. There is a delightful bathroom with floor-to-ceiling tiles, and there is nothing to do but move in and enjoy this lovely home.

Life here benefits from the perfect indoor-outdoor lifestyle that has been beautifully crafted within this property. The eco-decking creates a low maintenance and very impressive feature that lets you enjoy the leafy coolness of this area to the highest standard. The outdoor baths are an awesome feature and they're legitimately a brilliant way to unwind. Even be on of those crazy ice-bathers that keep telling me I'll never experience true joy if I don't get on board.

The gardens are mostly established native plants that won't require too much attention from you. There is always a bit of pruning to keep your pathways and courtyard clear, but aside from that, this garden seems to take care of itself.
