High \$600k's

This property has been immaculately maintained and lovingly looked after by the same owners for 31 years - it has PHENOMENAL potential. Please watch the video - I'll take you on a personal tour. The home is solid concrete block and totally original which gives it warmth, a homely feel and charm. The high ceilings give a feeling of space. The living room and kitchen are open plan and lead out onto a large under cover tiled patio with gorgeous garden and rainforest views. All totally private. Just love the sandstone feature wall which adds lots of character. The 3 bedrooms are large with lovely garden views plus the master has an ensuite and air con. There's so much storage space in this house, with cupboards in each room plus several in the hallway. Fully fly screened and ducted air conditioning in the kitchen and living areas, means all year round comfort. The carport at the front is super handy, plus the garage has a remote roller door for easy access into the house. The laundry has super functional access, along a concrete path to an original hills hoist - just magic! The 2.4 acres are easy care - enough grass around the house to be open and sunny, but the rest is just gorgeous natural rainforest with a seasonal creek at the back. No rear neighbours and the end of a no through road, means peace, quite and privacy. Snatch this one up - they don't make them like this anymore - super clean, tidy and well maintained - HUGE POTENTIAL
