NEVER LET A GREAT CHANCE GO BY

Properties such as this gem are in hot demand from all quarters, so make the most of this chance to get your hands on it.

Its appeal not only lies in its handy location just a short stroll from various family amenities.

It also has the key foundations of a very sound, well-designed and low-upkeep original home and a spacious lot, with good gated vehicle access to a double garage and fenced backyard.

While a little outdated inside, the home does feature modern vinyl timber flooring and is more than comfortable to enjoy as stands. It also features a rear patio.

However, you would not have to spend up too big, if you wanted to jazz things up a tad.

The layout is appealing from the light open living area and adjoining super-spacious separate lounge, with an r/c air-conditioner and gas bayonet, to the pleasant meals area and easy clean laundry access kitchen.

The remaining zone reveals a warm, sunlit main bedroom, with a walk-in robe and semi-ensuite, and a separate toilet, second bedroom with robe and a pleasant third bedroom.

A smart buy in a convenient setting with wide buyer appeal. Call now.
