With 1/3 of an acre on title, there's plenty of room to grow your own fruit and veggies, keep some chickens and enjoy country life in town. The house itself is charming and comfortable, set on a concrete slab with soaring cathedral ceilings in the living areas and kitchen. There's 4 bedrooms and 2 bathrooms inside, plus another bedroom and ensuite bathroom in the separate unit along with another living area. It would be great set up for teenager, elderly parent or a home business. You could also list it on airbnb for some extra income. Have a look at the floorplan and siteplan and let us know if you want us to send you some more photos. Better yet book an inspection to come and look in person.
