A Picture Of Potential

Traditions and temptations are equally represented throughout this three bedroom property, where classical, functional spaces are surrounded by an allotment of appealing size the combination suggests exciting possibilities, STCA, in one of Newport's most family friendly pockets. A deep front garden that instantly highlights the sense of scale creates the prelude to interior proportions that commence with three bedrooms, each with built-in robes, and a neat but basic central bathroom. A living room that leads to the separately zoned kitchen/dining area confirms the capability of the current day spaces against an outdoor backdrop defined by a covered deck and a substantial carport or entertaining space. Certain to offer future enjoyment that will more than match its past, the impetus to renovate, STCA, is enhanced by this home's superb position close to Challis Street and Mason Street shops, cafes, Newport station, family friendly parks and Newport Gardens Primary School.
