All three bedrooms come with built in robes and lots of natural light. The bathroom with shower over bath is close to all bedrooms while the toilet and second shower is down a small flight of stairs off the laundry. The lounge room is spacious and has a ceiling fan and a front security screen door. Plenty of cupboards in the kitchen. The outdoor entertainment area offers lots of room for a large outdoor setting. Single carport. Only the sides and back are fenced so the property is not suitable for dogs.
