## Historical Charm

Known as the "Headmasters House" built approx. 1935, one of the early houses of gold rush days. Full of charm and rustic character, the home is a little rough around the edges but there is no denying what some TLC would reveal.

What we love about this property:

- Elevated home in true outback style
- Modernised bathroom circa 1990's
- 2 Bedrooms plus 2 large sleepouts
- Enclosed verandah/rear lobby/laundry (big)
- Kitchen and meals - separate lounge
- Period timber work, architraves, cornice and ceiling work
- A rare opportunity to bring back to life a small part of Tennant Creeks history.
