Type: Land

This Block Is Unique

Located in the sought after "Fairways Green Estate" this ideal block is tucked away with views over public open space, no chance of being built out.

This particular part of the estate is part of the initial land release a few decades ago, so homes close by are all well established.

Retaining walls are completed on two sides of the block.

Water and power services are available.

Secure this block now and spend time planning your forever home.

Take a drive and see for yourself how the entire estate is filling up with new builds.

Very few good blocks remain.

We look forward to your call.
