This Farming Zoned bush block is ready and waiting for its new owners. Located just off North Mountain Road with only 300m of dirt road to the front gate, this is a real opportunity to secure land close to the Heathcote Junction township with train to the CBD and easy freeway access just a short drive away.

With a bit of clearing of young trees, there are some great potential building sites (STCA) available here and plenty of room for the kids to run around and for you to live in a quiet area with very few neighbours. I am sure you are aware how rare these blocks are, so be quick!
