## **Vacant Land in Prime Location**

If you have still been pondering whether to build your ultimate home this may be the block of land you have been waiting for.

Positioned at the apex of a quiet cul de sac street you have elevated views across the street scape towards the Northam landscape - well worth standing on this 811 square metre block to imagine your build in amongst the other established quality homes typical of this area.

One of the last remaining blocks in this street, the location is a gentle stroll down to the Northam Country Club and within easy walking distance of town.

Power, scheme water and deep sewerage are available to the block.

Call Maria now to arrange inspection.
