Call Mitch for more info - 0490 869 604 You guys always ask us to let you about great opportunities so here one is:If almost an acre of land in town was available at \$99,000 - What would you do to get it?3,952m² of clear land right in the heart of the Gympie that needs to go to the right person!Why the right person you ask? Because the constrained development zoning on this one will be a challenge to an amateur who wouldn't even know about the council mapping index website located at maps.gympie.qld.gov.au But, if you know what you're doing already, or at least know how to do a bit of research, you've probably not even read this line because you're thinking about the hundreds of thousands cheaper this land is and you're already doing the math and ordering a bigger wallet online while you call us.<https://buy.realtair.com/properties/104945>*Disclosure - This block is affected by the Q100 Flood line*
