## **YOUR OWN SLICE OF THE COUNTRY**

If you are living in Melbourne it is almost impossible to image how big 2730m<sup>2</sup> is. This rectangular block has had native trees and shrubs planted around the perimeter and as the years go on they will look amazing once they mature. The block is unserviced and on a no through dirt road but it is the idea of owning something this big is unimaginable in metro Melbourne. If you intend to develop it or just use to escape the rat race it will be yours and at a affordable price.
