CHEAP 1012m2 BLOCK

This Township zoned block has had a house on it at some stage and you can still see the paths, drive way, broken bricks and the rain water tank. The property is an old fashion quarter acre with a 20m frontage and a depth of 50m, there is a rear lane running across the back and the Power and water are in the nature strip out the front. The old car shed has seen better days and is mostly on the ground.

Subject to all the normal council approvals this block is a great option for your new home.

The property is being Sold as is.
