Offers Over \$300,000

This flat 10-acre block cannot be built on due to the Council Flood Mapping. Previously the property was famous for several decades as the supplier of Christmas Trees. The recent owners have said that they have planted another 2000 trees which could be perfect for someone to start the business back up again. These owners have mainly used it as a great family escape for trail bike riding. There is a dam and shed on the property as well.
