To enquire, please email or call 1300 815 051 and enter code 3919 Discover paradise in the heart of the Daintree Rainforest with this stunning 3-acre freehold property. This secluded oasis includes two dwellings featuring a permanent private creek and waterfalls, embrace the essence of peaceful living in this extraordinary setting. Either the American Frank Lloyd Wright's house "FALLINGWATER" or the EX\_MACHINA-movie house with their close proximity to flowing water best describes this property. If you haven't already, click on the video link on this page and visually immerse yourself in this tropical paradise. Where in Australia can you own such an amazing property only steps to your own private waterfalls and natural spa pools? As you stand at either of the two holiday houses you'll be humbled by the beauty and peaceful purity of the cascading water passing within metres of either house. The waterfalls are part of this freehold property and are within the boundaries giving the owner three acres of ancient majestic granite boulders awash in drinkable spring fed cascading water. A rare find indeed. Beyond the boundaries of this serene property enjoy the privacy of the World Heritage Listed Daintree National Park. Feng Shui principals, 'the ancient art of placement' are at the centre of this tranquil property. The main house is in the shape of the octagon as required by the Art and the master bedroom, located directly off the main living space provides comfort and tranquility with a charming attic offering a secondary living space or bedroom. With the third highest mountain in Queensland right behind and the never-ending cool crystal watercourse flowing in front, these are the highest principles of Fung Shui placement of buildings. Enjoy dining inside under the expansive featured timber ceiling with stunning exposed beams or entertain with a seamless indoor-outdoor flow onto a beautiful deck with breathtaking waterfall views. The second house is ten steps from its own private swimming holes and natural spa pools and is 50 metres away from the Main Abode. This one-bedroom retreat provides the perfect escape with a generous living space, separate bathroom and functional kitchen. Featuring private natural spa pools and undercover patio to enjoy the balmy nights. Both houses are a going concern as holiday lets. The property has been with the same owner for 23 years and is now time for them to reluctantly let it go. The property has a 24/7 off grid Hydroelectric power system and solar power system. All mod cons are available. Wi-Fi NBN provides high speed internet. Located on a quiet cul-de-sac road at the base of Thornton's Peak, Queensland's third-highest mountain and bordered by the Daintree National Park, you'll enjoy unparalleled privacy with no neighbours in sight. Enjoy the convenience of a low-maintenance garden, under-cover parking, and a spacious steel insulated panel shed. This property offers a cost effective and environmentally conscious means of living. Three kilometers away a brand-new medical centre is under construction due to be finished within a year. To add to the area's unique qualities Australia's first green hydrogen and solar powered micro grid is to begin construction within the next six months suppling the Daintree Rainforest with renewable power. Just minutes from pristine beaches and the Great Barrier Reef, be surrounded by nature from every angle. Don't miss this unique opportunity to own a piece of tropical heaven.
