New to Market

**** Inspections commence at the Open Home this Saturday 4th May @ 9.30am - 10:00am ****This lovely residence, sitting on 1011sqm of land surrounded by picturesque rural space, has been owned and held by the original family forever and is also the first time being offered to the open market in this very quiet and rural setting, down the end of Dreyer Road. The home, which has been renovated has a lot to offer its new owners and now, is the time to secure this family property. Inside: - • 4 Oversized bedrooms with separated main bedroom • 2 Bathrooms including ensuite off the main bedroom • Modern kitchen with plenty of room including fridge • Good sized lounge and dining room off the kitchen and entry Outside • Fully fenced 1011sqm with electric gate • Extra-large alfresco area with built in BBQ, bar fridge and TV • Undercover porch area with a wrap-around balcony to the alfresco area • Private inground pool • Established gardens with a beautiful established tree out the front • Double carport with plenty of extra, off-road parking The home also comes complete with a 50,000-litre water tank and high-pressure pump plus septic system. The property also has 3 Phase Power connected plus 2 x 15amp power outlets. This property has to be inspected to see what a wonderful location this really is. Now is the opportunity for you and your family to create generational memories as the current owners and family have previously done.
