The Galleria design is the perfect choice for a narrower water front block. Offering views from the kitchen, family, dining, alfresco and master bedroom out to the water. With direct access to the huge kitchen and butler's pantry from the family room stacker sliding doors on both sides provide a seamless connection to the outdoor spaces perfectly designed for relaxation and entertainment. A kid's zone consisting of three large bedrooms with a central activity room and attached bathroom illustrates just one aspect of this home's intelligent planning.
