This well situated 30acre(approx.) parcel of land is ideally suited for anyone wishing to run a few extra head of young stock on.The parcel is well fenced, established trees for shelter, main road access and well-watered, making for a very handy parcel of land indeed.With Cobden's CBD only a 5-minute drive away and having the Timboon - Camperdown Rail Trail running along one entire boundary, it would also compliment a lifestyle type property that you could build your dream home on (stca).Land of this size and in this location are rare and don't come up very often.
