This spacious home on a generous allotment was once one of the best in Scott's Creek. The House which is elevated was built new 2000 and features four bedrooms and two bathrooms upstairs with an internal staircase leading down to a spacious area with two additional bedrooms and a third bathroom. The property has a large double garage with twin roller doors which has the benefit of a concrete floor. The river front is tastefully done with concrete retaining walls featuring a boat dock with access stairs. Other features include an elevated barbecue area on the river's edge providing a wonderful dining experience. Even though the Shack is being sold as flood damaged, power has been reconnected into the meter box.
