## **Veronas in McCrae**

Bold in presence and striking in design, this boutique compilation of eight residences known collectively as 'Veronas in McCrae', immediately impresses with an architectural sense of style, substantial proportions and an exclusive McCrae address.

Offering a spectacular opportunity for couples or small families yearning for an elevated sense of luxury and style, or those just seeking a little something 'extra', this four bedroom four bathroom abode unveils a sublime fusion of natural complexities and precision-detailing across its entirely landscaped allotment.

A functional family floorplan showcases across two levels, introduced by a formal entrance before cascading across an open-plan layout with designated living and dining joining with a generous stone-topped kitchen complete with butler's pantry and dedicated laundry, beyond. Two master suites present a private opportunity for guests, whilst three generous bedrooms including a first-floor master bedroom occupy the first-floor, supplemented by further living space.

The north-facing rear aspect ensures the outdoor alfresco quickly becomes a favourite spot to enjoy a morning coffee or a late afternoon nibble, whilst low maintenance yet high impact perimeter landscaping softens the external environment.
