**\$500,000**

This 162 acre block only minutes from Kingaroy is a rare find. The block has been forestry plantation for the past 15 years and is now mostly cleared and grassed. High quality soils of red to chocolate and benefits of being spelled from cropping for the plantation trees. There is great house sites with fantastic views to the Bunya Mountains and over Kingaroy. Properties of this calibre close to town are rarely available. If you're in the market for a prime block in a prime position be quick on this one.
