Opportunity is KnockingSecure this Rural Land Holding that has been in the same family since 1956.Approx 92 Ha (227 acres) of good arable gently undulating land consisting of easy working brown /red brown sandy loam with sandy rises. A proven cropping area with good rainfall 343-368mm (13.5"-14.5" over a 10 year period). Very conservatively farmed with a traditional wheat / sheep rotation over many years.Certainly a fine property to acquire & add to your existing farm portfolio.
