Type: Residential Land

James Brown
0754957337

\$395,000

Some of the best land available on the Northside of Brisbane, elevated with a variation in overall topography to take advantage of the outlooks available, the construction of this stage in Morayfield Landing is completed and this is a very impressive stage release. With many residents now moved in, the Estate is becoming a sought after living location for residents. Long held Morayfield Landing offers an opportunity to build new homes adjacent to an existing primary school. The other major boundaries for the Estate are Open Space adjacent Sheep Station Creek and Rural Residential housing in Peppermint Grove Estate. This forms a desirable pocket which is Morayfield Landing. Being an infill development, easy access to shops, road networks and infrastructure is excellent with the estate providing for (FTTP) Fibre To The Premises perfect for the New Age of work from home and Streaming. If you have not been to view the land don't wait to be one of many who once visit comment "...we didn't know you could get land like this anymore".
