Banksy puts its best foot forward for families who love to entertain. With bedrooms and main bathroom to one side of the home and living area and outdoor access to the other, the mingling can continue even after the kids have retired for the evening. The master bedroom can be transformed into a suite with plenty of room for a sofa or entertainment area as well as a large walk-in robe and ensuite. A euro laundry and linen closet are neatly concealed, so they are out of sight.
