Dock One North is a modern interpretation of a Port through creative design and use of materials, interwoven with landscape and water. Architecturally designed by Enzo Caroscio, the homes at Dock One North evoke sustainability, wellness, and have been designed with minimal to no energy bills in mind. The townhomes come equipped with 6.6kw solar and are battery-ready as standard, with elements of thermal massing and cross ventilation also considered in the design to provide 7-Star homes for residents. These homes offer multiple living spaces thoughtfully designed to embrace the waterfront setting, forging a unique connection between home and harbour. Upstairs, you'll find four well-proportioned bedrooms, with the master bedroom featuring a walk-in robe & ensuite. Immerse yourself in a forward-thinking aesthetic, defined by clean lines and contemporary interior finishes crafted by Enoki. Choose from two distinct interior colour schemes - Norway or Denmark. Port Adelaide is evolving into an area where creativity, commerce, entertainment and education fuse into one energetic destination; transforming historical Port Adelaide into a thriving residential hub. Be part of the rise of a new residential locality by embracing Dock One North's unique approach to life. Contact Kite at (08) 8110 9800 to arrange an appointment at our Dock One North display home!
