With river views and measuring approximately 10,121 sqm metres of land, this premier land holding, within walking distance to the river's edge has the subdivision potential (STCC) to become one of the most prestige living environments in the Rural City. With an easy lead on from the already popular Forest Drive and surrounded by all new builds, the property is situated far enough away from the usual hustle and bustle of the inner city, whilst still only a short drive from all of the amenities with the extra bonus of a short distance to the waters pleasures. Traffic is low in this no through road, with only the neighbours utilising the strip. It is a well held area and thus a great opportunity for those wanting to capitalise on Murray Bridges current boom and shortage of housing. Population growth, presidential location and stock shortage, it's a no brainer here. Call now for an appointment to inspect.
