Offers by Expressions of Interest

This property is currently being run as a cane farm. This has an area of 54.32ha, approximately 134 acres, which is perfectly placed for future acreage subdivision, subject to the usual council approvals. It has 336 metres of road frontage and though a little bit different shape approximately 755 metres deep, it has different topography to it for good drainage, and it is just half a minute to the Peak Downs Highway and three minutes to the township of Walkerston. Walkerston is a wonderful, livable town with all amenities of schools, shopping centres, doctors, and sporting facilities, as the main bypass road for heavy vehicles passes through the town centre. This one is a must to inspect as rarely do properties of this type come on the market inspections are requested by appointment only. For further details on this property, contact Greg Chappell on 0408 775 810.
