Currently zoned Farming this 37.36 hectares that's 92.3 Acres of land for you to farm. This is a lifestyle block, but it also has plenty of sand that could be mined with the appropriate approvals of course, it could also lend itself to be subdivided in the town scheme. The current owner has done research in the past on Geotechnical and Environmental assessments for the property to be mined for sand. Access to the property is off a small side street Frontino Rd, leading from Donnybrook-Boyup Brook Rd, just look for the For Sale sign board. The owners are looking at all reasonable offers to be presented, if you would like copies of the reports, please let me know, they are from 2014 so not current.
