\$89,000

A beautiful, elevated, approximately 3060m² allotment of land with wonderful views over the township of Burra. Bordered by a magnificent Heritage Stone Wall to the front of the property, be transported back in time as you enter the former stable/barn building approx circa 1880's, again constructed of Blue Stone and local Stone. The stable has been re-roofed, the floor concreted and is now ready for a beautiful conversion into a cottage getaway or integrated into part of your new home. Limited only by your imagination. The setting is lovely, a private courtyard area between the front and side stone wall adjoins the original stable and is the perfect setting for Al fresco dining, High Tea's and garden parties. Build your dream home in this fabulous location (all of course subject to council consents). Take a short walk to Market Square to enjoy all of Burra's attributes. Allotments like this are rare in this tightly held dress circle area of Burra. Water is connected and power and common effluent are available.
