Clever and contemporary design is what sets the double-storey Urban Garage 2 in a league of its own. This three-bedroom, two-bathroom design, with open plan kitchen, dining and living area is both an intimate home and a serious entertainer's paradise. Elevated and elongated glazing elements designed to inject light in the home without compromising on privacy, cleverly adds a sense of openness. Coupled with a void in the upper level allows natural light from the roof windows to stream down to the ground floor creating a space that is undoubtedly a talking point. And if space is what you want, you'll love the open plan living, kitchen and dining areas that seamlessly combine together, only to be further enhanced by the alfresco balcony. Better still, all of this is within reach from the master suite that's also located on the same level. The ground floor features a single garage and integrated laundry, along with two bedrooms that offer privacy and separation from the master upstairs. The efficient use of space at ground level also results in an extra space perfect as a study nook or home office. The Urban 2 truly reaches new heights in terrace living.
