Nestled on the banks of the Mount Emu Creek is this block of land of approx. 14.99 acres. To be very clear, the property in the past has flooded and you would need to seek advice as to the land suitability to build a dwelling on from the local council.....or.....you can enjoy a weekend camping, ride the horses or mini bikes and just get away from it all. Located on the Warrnambool side of the township of Panmure the land offers a great spot for a weekend getaway. The vendors price expectations are very realistic as they want to move onto another project and require the property to be sold.
