\$245,000

The 'old' butcher shop sits on a spacious 1,005 sqm block in the heart of the Woodstock Village offering an astute buyer multiple opportunities to bring this building back to life. The property lends itself to the many possibilities including a complete transformation into a residence, re-opening as a butcher shop or start over with a totally new business. Key features:- Original metal clad shop frontage with office, store room and cool room- Large, 4 car steel frame shed at rear with power and concrete floor- Adjoining timber clad cottage and shed (note, this is in a deteriorated condition)- Side lane provides access to the rear of the block Woodstock and surrounds are a wonderful area where you can see fields of gold. The bright yellow canola crops are spectacular when they flower against the green spring fields. Woodstock is located 22km from Cowra.
